

SOCIOECONOMIC AND ENVIRONMENTAL VALUATION OF INDUSTRIAL AREAS REDEVELOPMENT

June 11th, 2013

Instituto Superior de Economia e Gestão | Auditorium 3 – BPP, ISEG

Hereby presented is the Seminar entitled "Socioeconomic and Environmental Valuation of Industrial Areas Redevelopment" that takes place on the 11th June 2013, following the conclusion of the REHMINE Project, and to which we would like to extend you an invitation.

The main objective of the project REHMINE was to value a rural brownfield redevelopment based on the principles of sustainable development, in particular the integration of the interests of the social players involved. For this, we studied the potential redevelopment planning of Mina de São Domingos in Mértola, Portugal (http://pascal.iseg.utl.pt/~socius/rehmine/).

The Seminar is structured in two parts. The first will present the results of the 3 years REHMINE's research. The second part will focus on research and practice on industrial rehabilitation and redevelopment, and public policies in Portugal and EU. This program allows for: an exchange of experiences within the brownfield redevelopment in Portugal and EU, and promote knowledge about industrial heritage, mining industry, contaminated soil remediation and reflecting on the main challenges and needs. Please see next the REHMINE Seminar Programme.

This Seminar is organized by the team of the Project REHMINE (Ref. PTDC/AAC-AMB/103907/2008), from SOCIUS (Research Centre in Economic and Organizational Sociology) at ISEG, Technical University of Lisbon.

The Seminar is free of charge, but registration is necessary.

Furthermore, we take this opportunity to let know that this Seminar also anticipates an event taking place in the ISEG on the 13th and 14th of June related with the issue of the Seminar: the International Workshop "Implementation of Sustainability on Management of Contaminated Land", organized by the European Network NICOLE (Network for Industrially Contaminated Land in Europe) and co-organized by SOCIUS, ISEG.

For further information on the **REHMINE Seminar** or/and the **NICOLE Workshop**, please send an email to: rehmine@socius.iseg.utl.pt

or contact Marisa Marques (Tel.: 00 351 213 925 825).
